

Employee Protection 2015

	Feature	Benefit	PrivacyArmor
Digital Defense	SocialArmor	Employees can monitor their social profiles (Facebook, Twitter, LinkedIn, and Instagram) to ensure a good reputation on and offline. Actionable alerts are sent via email, text message, and in the portal when questionable content requires attention. Eleven alert categories safeguard their reputation.	✓
	Digital Identity Report	A privacy report summarizes a deep Internet search (beyond a Google search) so employees can review what personal information is online and what should be removed to better protect their privacy and identity.	✓
	Internet Surveillance	<p>Continuous monitoring for misuse of employee information in the Underground Internet where criminals buy and sell personal information used to steal identities and money.</p> <p>InfoArmor's Enterprise Threat Intelligence unit offers exclusive dark web insights and hacker forums, helping InfoArmor devise preemptive measures to minimize potential attacks.</p>	✓
Identity Defense	Identity Monitoring and Alerts	More than just credit monitoring, identity monitoring with actionable alerts help employees catch fraud quickly and efficiently to alert the employee in a timely manner.	✓
	High Risk Transactions	Suspicious activity alerts from over 300 institutions provide real-time alerts, including bank password resets, online healthcare account access, online payroll access, and brokerage call center inquiries.	✓
	High Risk Applications	<p>With real-time alerts for accounts such as new wireless accounts, loans applications, and online account openings employees can know when a criminal is using their identity.</p> <p>InfoArmor provides comprehensive visibility to these types of transactions.</p>	✓
	Telecom	Alerts include land, VOIP, and wireless activity.	✓
	Payday Loans	Alerts include payday loans from retail and online establishments, ensuring unapproved or fraudulent loans do not hurt their credit.	✓
	WalletArmor	A secure, online wallet for an employee to store important information, like credit and debit cards, insurance information, passport number, and driver's license information.	✓
	Card Monitoring	WalletArmor items are monitored on the underground internet where criminals buy and sell personal information for fraudulent use.	✓
	Lost Wallet Assistance	If their wallet goes missing, an employee can use WalletArmor to easily replace its contents or call a Privacy Advocate for assistance.	✓
	Credit Report	A free annual credit report is easily accessed by employees via their PrivacyArmor portal.	✓
	Monthly Credit Scores	Employees can review their credit score monthly, giving them insight into unauthorized activity that could lower their credit score.	✓

Employee Protection 2015

	Credit Score Tracker	Employees track their credit score history in an easy to read chart to evaluate their financial status quickly month to month.	✓
	Fraud Alerts and Freezes	Designed for highest risk employees, these services are activated for identity theft victims. They are not an effective means of preventing or detecting identity fraud.	✓
Privacy Protection	Reduce Junk Mail	Employees receive less junk mail and minimize the exposure of their personal information.	✓
	Stop Pre-Approved Credit Cards	Employees end pre-approved credit cards, reducing the chance of fraudsters creating unauthorized credit cards.	✓
	End Telemarketing	Employees stop telemarketing calls and prevent personal information from getting into fraudsters' hands.	✓
Restoration	Privacy Advocate Remediation	<p>Employees have access to Privacy Advocates 24-7 who manage their identity restoration from start to finish.</p> <p>White glove services include, but are not limited to, helping employees confirm fraud, providing a fraud packet with next steps, submitting a limited power of attorney (as necessary), working with creditors to close fraudulent accounts or replace a stolen wallet's contents.</p>	✓
Insurance	\$25,000	If the employee becomes an identity theft victim, a comprehensive \$25,000 identity theft insurance policy limits their financial exposure and puts their mind at ease.	✓
Eligibility	Family Coverage	Family coverage includes under roof and under wallet coverage without age restrictions, protecting an employee's family regardless of living situations.	✓
	Child Eligibility	Children are eligible to enroll regardless of age, making PrivacyArmor a perfect solution for families with children of all ages.	✓
	Preexisting Conditions	Even if an employee is found to be a victim of identity fraud prior to enrolling in our services, a Privacy Advocate will fully restore their identity.	✓
	Portability	PrivacyArmor offers both voluntary monthly prices and employer sponsored packages.	✓
Communication	Pre-Enrollment	For seamless integration into an employer's benefit package, InfoArmor provides benefits fair collateral, open enrollment packages, pre-enrollment emails, intranet content, and more. A communication guide will be provided by your Account Executive.	✓
	Post-Enrollment	<p>Once employees have enrolled, InfoArmor sends a welcome email on their effective date.</p> <p>Employees are also mailed a welcome package that reviews how to make the most of PrivacyArmor and it many benefits. Ongoing emails are available for in-year enrollment opportunities.</p>	✓
	Mobile Alerts	Employees can opt to receive identity alerts via text or email, right to their smart phone.	✓

Employee Protection 2015

	Web Portal	PrivacyArmor's online portal offers easy access to an employee's identity and credit alerts and scores and social media monitoring.	✓
	Monthly Email	Employees receive a monthly email that highlights their identity risk and offers tips to protect their privacy and avoid current scams.	✓
Pricing	Payroll Deduction	InfoArmor is integrated with all of the leading payroll service providers, offering easy payment options via payroll deduction.	✓
	Monthly Prices	InfoArmor offers attractive voluntary and employer sponsored benefit pricing. And because we exclusively serve businesses, your employees won't pay for expensive direct to consumer marketing.	Please contact sales@infoarmor.com for a quote.
